

Bodegas Peique (Valle del Cua)

Spain - Bierzo

Valle del Cúa is produced by Bodegas Peique in Bierzo. The Peique family is from Valtuille de Abajo, a winemaking village of less than 100. Grandfather Ramon Valle took meticulous care of his vines and trained his family to do the same.

The first vintage was in 1999, with 10,000 bottles made in the cellars of friends. Now almost 20 years later, the family has its own facility & maintains the same enthusiasm for winemaking that they were raised with. They learned early that in an area of small farms, where parcels were so similar, the distinction must be made in the treatment of the vineyard and in the winemaking process. Experimentation and research are fundamental concepts in the definition of each product.
