

Cherubino Valsangiacomo

Spain -

In 1831, the Valsangiacomo family founded their Swiss company Fratelli Valsangiacomo Fu Vittore, with the goal of exporting fine wines worldwide. In the early 1900's, the company moved to the central Mediterranean area & adopted the name Cherubino Valsangiacomo.

Today, the 5th generation of the Valsangiacomo family produces & exports their fine wines from the Valencia and Utiel-Requena D.O.'s. They produced their first bottle of Vermouth bottle in 1904, and they use the same formula today, developed by their ancestor Benedetto.
