

Finca La Pared

Spain - Navarra

Finca la Pared covers 10 hectares in the Sonsierra Navarra, at an altitude of 474 meters above sea level, at the foothills of Sierra de Codés in Somontano de Viana-Los Arcos, in the Navarra Designation of Origin. Vines are over 20 years old and are planted on rugged terrains with strong undulations and an open, U shaped relief, marked by cool temperatures. This results in an estate with two exposures, north and south. The northern exposure is ideal for Merlot and Chardonnay and the southern-facing part, for Syrah.

Graciano, Syrah, Tempra
