

Milsetentayseis

Spain - Castilla y Leon

Milsetentayseis is the new project of Alma Carraovejas that seeks to strengthen one of the most unique areas of the Ribera del Duero: Fuentenebro.

Based on an ancestral vineyard, native varieties, an extreme climate and a unique environment, Milsetentayseis owes its name to the most differentiating characteristic of the project: It's altitude.

An old vineyard that coexists with new plantations within a comprehensive plot rehabilitation project that values a landscape of a great winemaking tradition.

Our aim: the production of unique wines that capture the essence of the environment, the individuality of each of the small vineyards that make up Milsetentayseis and the enhancement of one of the areas of greatest potential in the Ribera.
