

Penedo Borges (Bodega Otaviano)

Argentina - Mendoza

Penedo Borges is produced by Bodega Otaviano, located at the foot of the Andes Mountains. Founded in 2003, they have 41 hectares (101 acres) of vineyards & produce around 22,000 cases annually.

Bodega Otaviano began when a group of friends fell in love with Argentina, its terroir and its wines. The property is located 3,400 feet above sea level in Lujan de Cuyo's Alto Agrelo area. The soil is alluvial, with some loam and sandy loam areas. The use of precision viticulture techniques allows the production of different grape characteristics, appropriate to each wine that is produced.

Argen

Malbec, Cabernet Sauvignon, Syrah
