

San Valentino Bruscos Italy - Emilia-Romagna

San Valentino winery has been in the Mascarin family since 1990. It is located on the hills of Rimini, in a territory bordered by the Adriatic Sea to the east and by the first peak of the Apennines to the west. It is an area that benefits from a mild microclimate.

The family takes the utmost care of the vineyard with the help of the well-known enologist Luca D'Attoma who joined the team in 2000. The goal is to better develop the potential of existing vines and seek fascinating solutions with new vines. They converted to organic viticulture in 2009.
