

2nd Shift Art of Neurosis

2nd Shift Brewing

United States - Missouri - St. Louis

American IPA.

Art of Neurosis is literally the art of Steve's neurosis. On of the staples at the brewery, AON was the first big batch that 2nd Shift ever produced and distributed. It actually took Steve 47 times to brew this beer before he considered it ready for the main stage.

AON is the first beer I made at the brewery. It is a hop sandwich brewed with Simcoe & Columbus Hops, which are the greatest things in the world besides a good smack in the face.

Specifications

Availability	Year Round
