

zbar Spirits

*Handcrafted whiskey from
Seattle, Washington*

The Heritage

Over a century ago, the Kaiser family settled in South Texas and began ranching their land under the Zbar brand. For five generations it has stood for quality, independence, and hard work. These values are represented in each handcrafted bottle of whiskey from Zbar Spirits.

Grain-to-Glass

The production process begins with whole grains locally sourced and harvested in the Northwest. The milling, mashing, fermenting, distilling, aging, and bottling is done entirely on-site at the craft distillery located in the SoDo neighborhood of Seattle, Washington.

Straight Bourbon Whiskey

Zbar Straight Bourbon Whiskey is made from a six grain mash bill of corn, 4 different types of malted barley, and soft winter wheat. It ages for over 2 years in new 30-gallon charred American oak barrels before being bottled at 100 proof.
