Specifications

| Appellation | Barolo DOCG |
| Varietals | 100% Nebbiolo |
| Vinification | The grapes undergo a soft crushing and destemming leading to a clear must. This must ferments in steel tanks at a controlled temperature of 26°C and macerates for 20-25 days. After racking, the wine undergoes a lengthy maturation in oak barrels, which is continued with a lengthy bottle-ageing. Bottle-ageing confers the wine's final character, at which time the wine is sent to market and from there to consumer tables. |
