

CT Valley Fueled by Gravity

CT Valley Brewing Company

United States - Connecticut - South Windsor

Fueled by Gravity is produced using the finest European Two-Row Malts, which results in less protein and a more mellow flavor. Additionally, the finest Galaxy Hops from Australia and New Zealand are used in the production of this Hazy. Galaxy is originally a descendent of the German Hop, Perle. Today's Galaxy Hop yields the highest percentage of essential oils, which leads to beer with citrus, peach, and passion fruit aromas.

Specifications

Availability	Year Round
Style	NEIPA
ABV	8
IBU's	40
Hops	Galaxy
Packaging	cans & draft
