

## Keermont Fleurfontein

### Keermont Vineyards

#### South Africa - Western Cape - Coastal Region - Stellenbosch

The KEERMONT FLEURFONTEIN ('flower fountain') derives its name from a beautiful spring on the farm near the Sauvignon Blanc vineyard from which the grapes are sourced. The wine is produced by pinching the stems of the grape bunches while they ripen on the vine. This stops the translocation of fluids into and out of the grapes and allows them to dry naturally. The raisins are harvested a few weeks later and the syrupy juice is squeezed from them with a hard pressing process. The syrup is fermented in Hungarian oak barrels by indigenous yeast and is left to mature for 18 months. Total production of Keermont Fleurfontein 2015 was 2400 bottles. All grapes used in producing this wine were grown on Keermont Vineyards and bottling was carried out by hand without filtration in our winery.

#### Tasting notes

Pure yellow gold in color, Fleurfontein exudes vibrant aromas of cut grass, dried apricot, and soft citrus. The palate is full and voluptuous with concentrated flavors of honey, pear, citrus, and almond. A central core of acidity and a hint of new oak give the wine a long complex and focussed finish. Drink now through to 2030.

### Specifications

<b>Appellation</b>	Coastal Region - Stellenbosch
<b>Varietals</b>	100% Sauvignon from Low Road Block
<b>Vinification</b>	Raisins are produced by pinching the stem of the grape bunches while they ripen on the vine. This stops the translocation of fluids into and out of the grapes and allows them to dry naturally during the warm summer. The raisins are harvested a few weeks later and the syrupy juice is squeezed from them with a hard pressing process. The syrup is fermented by indigenous yeast in Hungarian and French oak barrels and is left to mature for 18 months.
