

Perennial Chasing the Horizon

Perennial Artisan Ales

United States - Missouri - St. Louis

Chasing the Horizon is the latest in Perennial's series of "hazy lite" IPAs. They paired a fruity British yeast strain with Pearl, a base malt from a centuries' old, family-owned British maltster. This IPA has big doses of Sabro, Simcoe, and Columbus in the dry hop, evoking aromas and flavors of sweet tropical fruits and juicy citrus, with a hint of dank pine. It elicits memories of finishing your shift, getting into your ride, and heading into a sunset over the Flatirons.
