

Waterstone Wines

United States - California

Phillip Zorn and Brent Shortridge, both with extensive experience in wine industry, formed Waterstone Winery in 2000 to create “luxury wines at affordable prices”. Waterstone owns no land or winemaking facilities; instead they begin with intelligent sourcing and long-term grape contracts to yield wines that live up to their high standards. Waterstone produces Cabernet Sauvignon, Chardonnay, Merlot, Pinot Noir and Sauvignon Blanc that stand apart in flavor and balance with authentic Napa Valley and Carneros varietal character expression.

Founded
2000
Location
United States - California
Wine Production Area
