

Shibumi Knoll Pinot Noir

Shibumi Knoll Vineyards

United States - California - Russian River Valley

Of all the California heritage Pinot Noir clones, the Swan clone is a complimentary match for the soils and climate in the Russian River Valley, where it originated. The vines in the block from which this fruit was sourced is 100% Swan clone planted in 1989. This wine shows some of the best traits of what is capable in a Russian River Pinot Noir while also avoiding many of its trappings.

Its complex nose tantalizes your senses with blackberry fruit, rose petal notes, white pepper, fennel and earthy leather and tobacco aromas. The taste offers a full-bodied rich sensation but not heavy, with a soft velvety texture leading to a substantial flavor despite its delicacy.

Specifications

Appellation	Russian River Valley
Varietals	Pinot Noir
